# MAX® International Faceplates

The MAX series modular faceplates combine high capacity with aesthetic enhancements that provide a fresh new look to match today's technologies. The faceplate offers pressure-release designation label covers which eliminate the need for a probe-pic or screwdriver when installing faceplate labels. The faceplates are designed to be used with Z-MAX®, TERA®, and both angled and flat MAX outlets. Its durable finish masks minor scuffs that may occur during daily usage.

Labels — Sheets of designation labels can be ordered for use with printers

Variety — A variety of faceplates and adapters are available

Installation Flexibility
Flexible mounting tab on MAX outlets allows installation from front or rear of faceplate.

Reduced Mounting Depth
Siemon's angled faceplate adapters provides a secure mounting solution for use in trunking systems, faceplates and floor boxes while reducing depth needs.

Application Flexibility —
Complete multimedia support

Multiple Colour Options —
Faceplates available in black, white, bright white, alpine white, ivory, light ivory

Labelling
Most faceplates include pressure-release designation label covers for quick, tool-less removal.
