

## Modular Y-Adapters

Y-Adapters are available as "splitters" which convert one 4-pair jack into two jacks. The Y-Adapters utilize Simon's patented UP-2468 plug which allows adapters to be used in 6- or 8-position jacks. The adapter body can be rotated 180° to view either the colored icons or the Y-Adapter pinouts, which are printed on the opposite side.

## Modular 4-Way Splitter

Simon's modular 4-way splitter provides access to each individual pair of a 4-pair modular outlet. The splitter converts a single 4 pair outlet to 4 individual 1-pair, 6-position outlets to enable four unique modular connections. The universal plug design enables compatibility with both 6- and 8-position outlets.
