

# Z-MAX® 6A Shielded Modular Cords

## - International

Combining the unparalleled performance of an exclusive PCB-based plug, noise-resistant shielded construction and a host of innovative user friendly features, the shielded Z-MAX 6A modular cords are the ultimate Category 6A cord. All cords are 100% factory-tested to ensure performance and compliance.

Siemon's PowerGUARD technology with a 75°C operating temperature improves heat dissipation for reduced length derating and bundling requirements in remote powering applications, including PoE and power over HDBaseT (POH).

**Low Profile Boot Design**  
Optimises side-stackability of patch cords and allows use in even the most dense patching environments

**High Performance Cable**  
Patch cords feature Category 7 S/FTP stranded cable for optimal transmission performance while eliminating alien cross-talk

**Integrated PCB**  
PCB equipped Smart Plug optimises signal tuning for exceptional transmission

**Fixed Front Contacts**  
Ensure proper mating with outlets to eliminate the performance variability of traditional crimp-style terminations

**Superior Performance Consistency**  
Rear contacts maintain cable twist to point of termination and provide robust strain relief. Solderless, press-fit contact technology ensures long-term reliability

**Cantilevered Latch**  
Allows latch activation from further back on the boot for superior accessibility in high density environments

### STANDARDS COMPLIANCE
