Package Includes

- SR4POST58HD Heavy-Duty 4-Post Open Frame Rack
- Installation hardware
- (2x) PDU/Cable management brackets
- Owner's manual with warranty information

Description

This 58U Heavy-Duty 4-Post Open Frame Rack helps IT managers organize their equipment and provides fast, easy access to installed IT equipment. The SR4POST58HD is a simple solution for housing IT equipment in secure environments and other areas that don't require a lockable rack solution. This 58U rack features heavy-duty cold-rolled steel construction with a black powder-coated finish for durability. It supports stationary and rolling loads up to 3,000 pounds (1360.8 kilograms). The SR4POST58HD comes with all the hardware required for assembly and has a self-squaring design with bolt-down provisions. For high-density applications, multiple units can be bolted together side by side.

The open design provides unobstructed airflow and easy access to equipment and cabling. It has numbered, square-hole mounting positions for easy installation of standard 19-inch rack equipment. The SR4POST58HD supports equipment depths up to 35 inches. This rack also accommodates toolless button-hole mounting for vertical PDUs and cable managers.

The optional SRCASTERHDKIT Heavy-Duty Rolling Caster Kit (sold separately) adds mobility to the SR4POST58HD. The SR4POST58HD also supports optional side panels with the SR58SIDE4PHD, a set of two half-size side panels and a third smaller panel that add a finished look to end-of-row racks in your data center.

Features

- Weight capacity of 3000 lbs (1360.8 kgs) stationary
- Supports equipment depths up to 35 inches
- Textured, black powder coat finish
- Heavy-duty cold-rolled steel construction
- Numbered mounting positions
